1. Introduction

Thank you for purchasing **ElevatePro**! This project is crafted to build an attractive, responsive, and user-friendly website, complete with essential sections like About Us, Services, and Contact Us. Features include a smooth-scrolling “Back to Top” button, AOS animations, and a clean, modern design.

Requirements

- **Basic knowledge of HTML5 & CSS3**
 - **Understanding of JavaScript and jQuery (for animations and dynamic elements)**
 - **Code editor** (e.g., Visual Studio Code, Sublime Text)
-

2. Features

- **Fully Responsive:** Adapts to all screen sizes.
 - **Modern Design:** Professional and clean, with Poppins font.
 - **"Back to Top" Button:** Smooth scrolls back to the top.
 - **Responsive Navbar:** Expandable and collapsible.
 - **AOS Animations:** Smooth scroll animations.
 - **Easy Customization:** Well-organized CSS and JavaScript.
-

3. File Structure

Project Overview

/project-folder

|

├─ index.html	// Main HTML file
├─ about.html	// About Us page
├─ services.html	// Services page
├─ contact.html	// Contact Us page

```
|  
  
├─ css/  
|   └─ style.css    // Main CSS for styling  
|  
├─ js/  
|   └─ script.js    // JavaScript for interactive elements  
|  
├─ assets/  
|   └─ images/      // Images used in the project  
|  
└─ README.md        // Documentation
```

File Descriptions

- **index.html:** Homepage.
 - **about.html, services.html, contact.html:** Specific pages for each section.
 - **style.css:** Contains all project styling.
 - **script.js:** Handles interactive elements like "Back to Top."
-

4. Installation Guide

1. **Unzip the Package:** Extract the downloaded .zip file to your desired directory.

2. **Open in a Code Editor:** Use your preferred code editor for easier navigation.
 3. **Open in a Browser:** View the project by opening index.html in your web browser, or use Live Server in Visual Studio Code for live reloading.
-

5. Customization Guide

Changing Colors

1. Open css/style.css.
2. Locate the color values (e.g., background-color: #1E2A3A;).
3. Replace with your chosen colors.

Adding or Updating Images

1. Place new images in the assets/images folder.
2. Update image paths in HTML or CSS, e.g., ``.

Editing Text

- Open the HTML file where you want to edit text.
- For example, in about.html:

```
<h1 class="display-4">About Us</h1>
```

```
<p class="lead">We are a professional company...</p>
```

Adding New Sections

1. Duplicate an existing section in the HTML file.

2. Update the ID and content.
 3. Add custom styles in style.css if needed.
-

6. JavaScript and CSS

JavaScript

- **Main File:** js/script.js
- **Key Functions:**
 - **"Back to Top" Button:** Shows when the user scrolls down 100px.

```
window.onscroll = function () {  
  
    let button = document.getElementById("back-to-top");  
  
    if (document.body.scrollTop > 100 ||  
document.documentElement.scrollTop > 100) {  
  
        button.style.display = "block";  
  
    } else {  
  
        button.style.display = "none";  
  
    }  
  
};
```

CSS

- **Main Stylesheet:** css/style.css
- **Organization:**

- **Global Styles:** Basic resets and font styling.
 - **Navbar:** Navigation bar styling.
 - **Hero Section:** Main banner styling.
 - **Button Styles:** Includes hover and active states.
-

7. External Libraries and Plugins

Libraries Used

- **Bootstrap** (for responsive design):
<https://cdn.jsdelivr.net/npm/bootstrap@5.1.0/dist/css/bootstrap.min.css>
- **AOS** (for animations):
<https://cdn.jsdelivr.net/npm/aos@2.3.4/dist/aos.css>

Including the Libraries

These are linked in the <head> of HTML files. For offline use, download the libraries and update the file paths.

8. Frequently Asked Questions (FAQ)

- **Q:** How do I change the primary color?
 - **A:** In style.css, find color properties like background-color: #1E2A3A; and replace them with your chosen colors.
- **Q:** Why isn't the "Back to Top" button appearing?

- **A:** Ensure script.js is linked correctly at the end of the HTML file, and check that you've scrolled down enough for the button to activate.
 - **Q:** How can I add new team members in the About Us section?
 - **A:** Duplicate a team card in the HTML under `<div class="row">` in about.html. Update the image path and name.
-

9. Support

For any questions or assistance, please reach out via the Envato support page or by email at jayanthiyuthayakumar@gmail.com. We're here to help ensure you have a seamless experience with **ElevatePro**.

Thank you for choosing **ElevatePro**. We hope this documentation proves helpful and that you enjoy using the project!
